## The **Power** of Choice

Our vision is to bring more renewable power to the marketplace and facilitate a cleaner, more sustainable future, by:

- Providing individuals and businesses with direct access to more competitive and practical choices for 100% renewable energy
- Supporting self-reliance and energy independence
- Producing green power that is economically viable as well as environmentally sound
- Encouraging creativity and innovation among ourselves, our customers and our partners

## **We are 3 Phases Renewables.**

Your source for green energy solutions.

As a certified Energy Service Provider (ESP) by the California Public Utilities Commission (CPUC), 3 Phases Renewables is a leading supplier of comprehensive renewable energy solutions. We offer the expertise and resources to provide our customers with green energy, renewable energy certificates (RECs) and consulting services.
